February 2011 was a time of change for **Wilson Bros Ltd** and **SAECOPRECISION** as we had merged our two businesses to form a national company. The bones of our company were solid across our product lines, however one product area was identified as a key area to progress and expand from the bottom of the South Island to the top of the North Island.

Engineering Tools and Consumables was a growing area of interest from our customers and we took steps to expand our range across all branches. To help this process and ensure we were bringing our message of expansion to our customers we quickly realised we needed a platform to showcase our offerings and make new and innovative products more visible.

This led to Paul Connolly, Steve Thorpe and myself meeting at the **SAECOWilson** Dunedin branch in February 2011 where we drafted the beginnings of our magazine "**NZworkbench**".

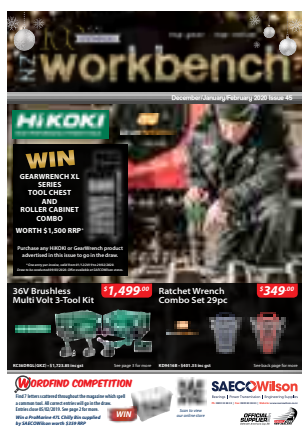

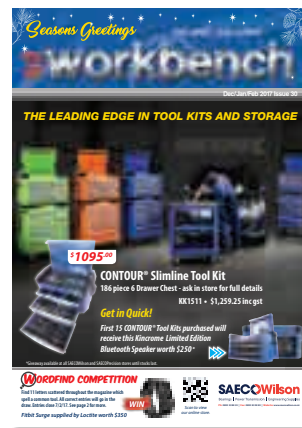

This first edition was 16 pages developed and designed in-conjunction with a local Dunedin

business **Cre8ive Marketing** and featured **Powerbuilt** products from **Alltrade Tools NZ** on the front cover. Our brief was simple: a quality magazine, featuring new products, technical updates and great product specials.

Today **NZworkbench** is still going from strength to strength and has doubled in size thanks to our loyal suppliers and hugely supportive customers, we thank you for this as we continue forward.

We invite our customers to provide feedback on what you enjoy seeing featured or would like to see more of, by emailing [nzworkbench@saecowilson.co.nz](mailto:nzworkbench@saecowilson.co.nz)

*Thank you for helping us reach this significant milestone - 50 issues in ten years, Gregg Blomfield*
