From the Desk of the Marketing Manager

June saw the co-location of three of our group businesses in Dunedin. SAECOWilson, HCD Flow Technology and Seal Innovations Dunedin all moved into one location at 8 Strathallan Street, offering you a one-stop solution for all your industrial supply requirements.

Purchase any HiKOKI product featured on the cover or page 3 and stand a chance to win a HiKOKI 18V Premium Site TV and Radio worth \$599! Our Wordfind competition also has a great prize for this edition – a Zero-X Force Full HD Drone worth \$350 sponsored by Alemlube.

Be on the lookout for bonus items scattered throughout and take advantage of the Hot Specials on pages 14 - 17.

Our centre pages take a look at conveyor rollers from C&T and Timken's Spherical Roller Bearing Solid-Block Housed Units and Split Plummer Block Solutions.

As always, our dedicated team of experts are standing by to help you get the job done.

WORDFIND COMPETITION

Find hidden in this issue 13 letters which make up the name of a common tool. Find all the letters (*like this W*) to spell the tool. Email your answer, name, company, address and phone by **1 September 2021**. A correct entry will be randomly drawn and the winner will be notified.

TIMKEN® SNT SPLIT PLUMMER BLOCK SOLUTIONS *A SINGLE SOLUTION HOUSED IN STRENGTH*

Stronger Outside Smarter Inside

Timken® offers the power of a single solution to help improve the reliability of your most rugged operations.

Accelerate your efficiency with Timken® SNT Plummer Blocks that keep lubrication in and contamination out. With a split-design cast iron or ductile iron housing outside – and Timken® High-Performance Spherical Roller Bearing inside – you'll put an integrated bearing solution of the highest integrity to work.

- **Engineered Housings:** No matter the size, our durable housings are engineered to perform. The large sizes (3000-3100 series) come standard in ductile iron for your toughest applications.
- **Timken® Spherical Roller Bearings:** Gain longer bearing life through premium performance from increased load-carrying capacity and cooler running temperatures.
- **Four Seal Options:** Choose from double-lip, labyrinth, V-ring or taconite designs.
- **Effective Lubrication:** The lubrication system features a centre-mounted grease fitting matched to the bearing lube ring and holes, along with options for other grease fitting locations.
- **Flexible Configurations:** With many options to choose from, there's a Timken® SNT split plummer block solution to meet all your needs. Depending on your accessories, a single housing can be utilised for a variety of bearings based on capacity needs, in fixed or float positions, and open or closed with end covers.

TIMKEN® SNT Split Plummer Block Product Offering

- **Two-Bolt SNT Housings for Tapered and Cylindrical Bore Bearings:**
200-300 and 500-600 series (shaft diameter 20mm to 160mm) furnished in cast iron.
- **Four-Bolt FSNT Housings for Tapered and Cylindrical Bore Bearings:**
200-300 and 500-600 series (shaft diameter 35mm to 160mm) furnished in cast iron.
- **Large Plummer Block Housings:**
3000-3100 series (shaft diameter 150mm to 480mm) come standard in ductile iron.
