## From the Desk of the Marketing Manager

We're excited to announce the completion of our Hamilton Motion Centre at 40 Killarney Rd, Frankton. This is our first Motion Centre in the North Island, bringing together three of our long-standing brands under one roof - SAECOWilson, HCD Flow Technology and Seal Innovations.

Our cover competition is sponsored by Alltrade. Buy any product featured on the cover or page three and you could win one of three CAT Multitool Gift Packs. Our Wordfind competition has a Retractable Garden Hose Reel supplied by Macnaught up for grabs valued at \$350 RRP.

Be on the lookout for bonus items scattered throughout and be sure to check out this edition's Hot Specials on page 10 and 11. We profile FAG Black Series bearing units and Plummer Block Housings on pages 12 and 13.

As always, our dedicated team of experts are standing by to help you get the job done.

## WORDFIND COMPETITION

Find hidden in this issue 9 letters which make up the name of a common tool. Find all the letters (*like this W*) to spell the tool. Email your answer, name, company, address and phone by **1 June, 2022**. A correct entry will be randomly drawn and the winner will be notified.

# BLACK SERIES BEARING UNITS

FAG Black series of single row transmission bearing units manufactured to JIS (Japan) standard is available from SAECOWilson.

This series of housings is manufactured at FAG's high tech production facility in Vietnam to service the requirements of Asia, Oceania and Australasia regions which are predominantly based around the JIS series of bearing units.

- ◆ High quality flake graphite cast iron (grey cast iron) castings to JIS B 1557 standard
- ◆ Full range of housing styles in pedestal, flange, take up etc.
- ◆ Close tolerance bearing to housing fits for consistently firm fitting assemblies
- ◆ High quality bearing inserts with honed raceways and plastic ball cages for silent running
- ◆ Outer surfaces of bearing insert Durotect® coated for corrosion protection

For more information contact our branches on **0800 338 833** or see our website **[www.saecowilson.co.nz](http://www.saecowilson.co.nz)** for a catalogue in our Downloads section.

## SES SERIES PLUMMER BLOCK BEARING HOUSINGS

**Schaeffler - FAG has just launched a new range of Plummer Block Bearing Housings.**

The new SES range is packed with numerous features to extend bearing life, make fitment and maintenance easier, suit a wider range of applications and incorporate features for Industry 4.0 automated operation. The new design with higher strength and rigidity is suitable for demanding applications in Heavy Industry, Mining, Conveying, HVAC, Forestry etc.

The SES range will eventually replace both FAG current series SNV and SNG housings. First stocks of SES Housings are expected to arrive in New Zealand mid 2022.

### KEY FEATURES:

- ◆ Dimensionally compatible with conventional standard plummer block housings
- ◆ Optimised design to provide greater rigidity and support to bearing for longer bearing life
- ◆ Cast from high quality and high strength flake graphite cast iron and precision machined
- ◆ Full range of sealing options to suit every application and environment
- ◆ Drain plugs to facilitate easy and controlled removal of used and excess grease build up
- ◆ Housing halves are serial numbered for perfect matching
- ◆ Markings for housing for alignment and the positioning of temperature and vibration sensors
- ◆ Compatible with FAG split spherical roller bearing
