Season's Greetings

And there you have it, our last issue for 2023! The team at Motion would like to wish each and every one of you a safe and happy festive season, and we look forward to working with you again in the new year.

This edition is jam-packed with some great giveaways and bonus offers. Our cover competition is sponsored by Milwaukee with 5x Weber Baby Qs up for grabs if you purchase any Milwaukee power tool from a SAECOWilson branch or Motion Centre in NZ. The wordfind competition has a 2,000W Infrared Heater you could win worth \$399, and get holiday-ready with some excellent deals on trailer gear - pages 14 and 15. On page 13 you can read about our new state-of-the-art GPC distribution centre that recently celebrated it's grand opening in Wiri and much, much more. **Stay safe out there, and see you all again in 2024!**

WORDFIND COMPETITION

WIN a Euroblade 2,000W Infrared Heater
Supplied by SAECOWilson worth \$399 RRP

Find hidden in this issue 8 letters which make up the name of a common tool. Find all the letters (like this **W**) to spell the tool. Email your answer, name, company, address and phone by **1 February 2024**. A correct entry will be randomly drawn and the winner will be notified.
competition.nzworkbench@saecowilson.co.nz

Congratulations Stephen Bjarnesen of Rotorua Toyota and Peter McLeod of Priceright Parts and Machinery Rotorua, our Wordfind winners of the October/November issue, who each won a pair of Esko Max28 Bluetooth Earmuffs supplied by Esko worth \$100 RRP each.

The answer was GEARPULLER

WORDFIND AND FRONT PAGE COMPETITION TERMS

One entry per person (Wordfind) or one entry per invoice (Cover Competition). NZWB reserves the right to publish the winner's name. Competition is not open for employees, advertisers or their families. Prizes are not transferable and cannot be redeemed for cash. Any expenses incurred in claiming and using a prize are the sole responsibility of the prize winner. Competition is open to NZ residents only. The judge's decision will be final and no correspondence will be entered into. The winner will be contacted via phone number provided.

Winner of National Promotion

Congratulations to Dave, who won a Suzuki DR-Z125L dirt bike worth \$4,999 by purchasing CRC Evapo-Rust from the SAECOWilson store in Glenfield.

Promotion was on our front cover July/Aug/Sep, issue 62.

M18 FUEL™ Three Piece Power Pack

\$1,499.00

- M18FMTIW2F12 746Nm 1/2dr impact wrench
- M18FAG125XPD 125mm paddle switch grinder
- M12FIR38 74Nm 3/8dr ratchet
- 1/2dr metric deep impact socket set 14pc
- 2x M18™ 5.0Ah batteries, 1x M12™ 2.5Ah battery, rapid charger and bag

Milwaukee

NEW

M18FPP3AC523B • \$1,723.85 inc gst

M12 FUEL™ 13mm Bandfile Skin Only

\$419.00

- Two variable speeds with forward and reverse
- Lock-on function reduces user fatigue
- 360° tool-free arm rotation
- No need for pneumatic compressors and hoses

Milwaukee

M12FBFL130 • \$481.85 inc gst

SHOCKWAVE™ Drill and Driver Bit Set 86pc

\$150.00

- Optimised SHOCKZONE™ absorbs peak torque preventing breakage
- Up to 50x longer life than other impact bits
- Hex shank, compatible with all impact drivers and hammer drills
- Includes wide range of drill and driver bits

NEW

Milwaukee

48325105 • \$172.50 inc gst

TORCH™ Blades 150mm 3pc

\$85.00

- NITRUS CARBIDE™ teeth cut through steel, stainless, rebar and much more
- Delivers up to 3x the lift of existing carbide teeth blades
- 7tpi for fast starts and smoother cuts

Milwaukee

48005361 • \$97.75 inc gst

MX FUEL™ Power Supply

\$2,395.00

- 3,600W peak (1,800W cont) for high draw tools and equipment without generators or long leads
- Pure sine wave output for sensitive electronics
- Integrated MX FUEL™ charger
- M18-M12 charger mounting location (charger not included)
- Lockable battery bays
- ONE-KEY™ compatible

Milwaukee

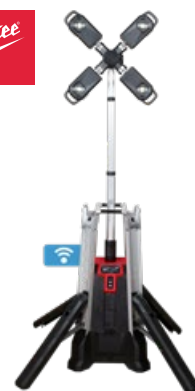

MXFPS-0 • \$2,754.25 inc gst

MX FUEL™ Tower Light

\$4,795.00

- Up to 27,000lm (AC power) or 20,000lm (battery) of TRUEVIEW™ high definition output
- 4x independently adjustable light heads
- Integrated charger function and ONE-KEY™
- Motorised mast reduces setup time
- IP55 protection (on battery use only) for use inside and out
- Withstands winds to 56km/h
- Rugged 200mm rubber wheels

Milwaukee

MXFTL-0 • \$5,514.25 inc gst

MX FUEL™ REDLITHIUM™ XC406 6.0Ah Battery

\$895.00

- REDLINK™ PLUS INTELLIGENCE provides communication between battery, equipment, and chargers
- World leading cell technology for optimum performance and life
- Integrated carry handle
- Onboard fuel gauge
- Protective rubber overmold with increased rubber in impact zones

Milwaukee

MXFXC406 • \$1,029.25 inc gst

MX FUEL™ Battery Charger

\$395.00

- Charges all MX FUEL™ batteries
- Onboard carry handle for easier transportation
- Internal fan maximises charger performance and lifespan

Milwaukee

MXFC • \$454.25 inc gst

36V 1/2dr 1,050Nm Impact Wrench Kit

- 400/600/800/1,050Nm and 1,650Nm nut-busting torque
- IP56 dust and water resistant
- Includes 2x 1,080W batteries, 32min rapid charger and case

BONUS 41Pc Impact Socket and Bit Set

Trigger Action Grease Gun 450g

\$126.00

- Grease pressures of up to 8,500psi (586bar)
- Delivers up to 1.1g of grease per stroke
- 4-jaw coupler and flexible 30cm long extension
- Ever-Flow System enables the gun to be used with thick tacky greases even in the coldest conditions

AL660A • \$144.90 inc gst

EL Series Lever Action Grease Gun 450g

\$39.00

- Grease pressures of up to 8,000psi (552bar)
- Delivery rates of up to 0.95g per stroke
- Robust die cast head assembly
- Heavy-duty 4-jaw coupler

ALG10020 • \$44.85 inc gst

EL Series Grease Pump 20kg

\$720.00

- 4m long hose assembly
- Maximum fluid pressure of 5,800psi (400bar)
- All types of grease up to NLGI2
- Delivers up to 600g/min
- Air consumption of 3.6cfm at 150psi
- Air inlet pressure from 70psi (5bar) to 150psi (10bar)

ALG100120 • \$828.00 inc gst

Quick Release Grease Gun Coupler

\$39.50

- Works with all grease gun types - pneumatic, manual and battery
- 1/8BSP thread
- Maximum working pressure of 10,000psi (690 bar)
- Fits all metric and SAE specification grease nipples
- Length: 90mm

AL14512 • \$45.43 inc gst

Rotary Action Drum Pump 205L

\$161.00

- Suitable for the transfer of diesel, petrols, kerosene, lube oil and machine oil from 60L and 205L drums and bulk tanks
- 2" BSP bung adaptor
- Delivery rates of up to 18L/min
- Length: 1.3m

AL501A • \$185.15 inc gst

Gear Oil Drum Pump 20L

\$61.00

- Capable of delivering up to 110ml per stroke
- Suitable for use with a variety of 20L drums
- Ideal pump for the transfer of engine, gear, diff and hydraulic oils
- Drainback nozzle holster ensures that excess oil ends up back in the drum
- UV stabilised long life hose ensures a long service life

AL8828 • \$70.15 inc gst

EL Series Water Hose Reel 20m

\$289.00

- Increased safety by reducing rewind speed by up to 80%
- High quality impact and UV resistant polypropylene covers
- Supplied complete with 20m x 12mm ID PVC hose and 1.2m lead in hose
- 3/4BSP inlet and outlet threads
- Highflow swivel and fluid path
- Maximum working pressure of 300psi (20bar)

ALHR40050 • \$332.35 inc gst

Hi-Flow Grease Loader Pump Kit 20kg

\$899.00

- Hand operated, medium pressure, high volume grease transfer pump
- Delivers up to 77cc of grease per stroke
- Develops up to 500psi grease pressure
- Includes drum cover, follower plate, quick connect coupler and 2m of hose

AL7667 • \$1,033.85 inc gst

Ready to Weld Starter Package

- 200A 3-in-1 multi-process welder
- Synergic and manual MIG
- Stick welding with selectable VRD
- DC Lift-TIG (optional torch) for mild and stainless steel
- LED digital screen
- 10A domestic plug
- Includes MIG200 welder, MIG wire, helmet and gloves

\$799.00
ARCOPRO®

ARCOMIG200PKG • \$918.85 inc gst

ARCOPRO®

Mild Steel MIG Wire 5kg and 15kg Spools

- 5kg spool suits compact MIG machines
- Ideal for fabrication of thin gauge steels, general steel construction and fabrication of structural steel
- ER70S-6 classification

Gasless MIG Wire 5kg Spools

- Self-shielded, all positional wire for single and multipass applications
- Ideal for thin material and galvanised steel
- Suitable for light fabrication, general workshop and easy portable use without requiring a bottle of shielding gas
- E71T-11 classification

Welding Helmets

Large View Gloss Black ARCOBLACK

- True colour four sensor professional filter
- Large viewing area 100x53mm
- Variable shade: 5-8 (plasma) and 9-13 with grind function

Digital XL View ARCOBLUE / ARCO COPPER

- Ultimate clarity and detail with industry leading 1/1/1/1 true colour
- Large viewing area 98x87mm
- Digital push button filter - grind, 5-8, 9-13

BUILT FOR THE FUTURE...

NEW MEGA DC FOR MOTION

A new mega distribution centre – the size of eight rugby fields – is helping New Zealand's largest industrial parts supplier, Motion New Zealand Ltd, meet increased demand with quicker delivery of MRO (maintenance, repair, and operations) products to customers.

With the capacity to hold 140,000 product lines and process 16,000 items an hour, the official opening of Genuine Parts Company's (GPC) new facility in Wiri, Auckland, has enabled Motion to increase the service and product range it offers customers.

Motion Executive General Manager, Mark Forster, says customers are not only requiring greater speed, but also adaptability, to ensure products are available on demand.

"Improving the customer experience is critical but more importantly it's about having the right high-quality products available to our customers to enable them to get on and do their job to the highest quality."

"With the distribution centre operating at full capacity it allows us to be agile and means we can get products to our customers more quickly and efficiently," he says.

Developed by leading modular warehouse and logistics systems experts SSI Schaefer, the new facility has one of the most advanced automation systems currently available globally.

The purpose-built distribution centre is packed with the latest equipment to enhance team safety and operational efficiency with a strong emphasis on sustainable design principles.

- Solar panels and advanced energy control systems
- Electric forklifts
- Rainwater collection creating a 35% annual water saving

GPC New Zealand Executive General Manager Jonathon Maddren says the system provides more than five times greater operational efficiency driving smoother and faster supply across the country.

"The investment GPC has made in automation and scale of operation will optimise our service and range for customers, partners, and our team. It's a game changer," says Maddren.

"The customer environment demands faster service than ever before. Our customers will experience the difference in speed and accuracy as this facility comes to full operation in the next few months. It is also enhancing the speed and efficiency of our supply partnerships and our service to our branch teams." Maddren says.

The Genuine Parts Company (GPC) is a global distributor of automotive and industrial parts through its brands: Motion (Industrial), NAPPA, and Repco (Automotive). It purchased Motion New Zealand Ltd – the leading distributor of bearings, power transmission, hose and fittings, seals, welding equipment and engineering consumables, in 2019.

HP-100 Dual-Flo Aluminium Lever Hand Pump

- ✓ Compatible with petrol, diesel, aviation fuels, Kerosene and more
- ✓ 1.9L per stroke
- ✓ Dual-flo piston design pumps fluid on both the push and pull stroke
- ✓ Two-position handle for both high and low flow rate applications
- ✓ Light-weight aluminium body provides corrosion resistance and reduces tank stress
- ✓ Handle lock deters fluid theft

\$499.00

RAASM 240V, 10A, 15M Electric Cable Reel

- ✓ 10A 240V cable (3G 1.5mm x 15m)
- ✓ Inlet cable: 1.3m
- ✓ Working temperature: -5°C to +40°C with thermal protector
- ✓ IP44 rated for indoor and covered outdoor use
- ✓ Maximum 2300W (10A) when fully unreeled
- ✓ Maximum 1200W (5A) when coiled
- ✓ Includes swivelling bracket
- ✓ AS/NZS 3105:2014

90-2315SFA • \$419.75 inc gst

\$365.00

Pitstop 45, 12V

- ✓ Ready to install
- ✓ Complete diesel transfer solution
- ✓ Includes automatic reel with 14m hose (19mm), automatic nozzle, dual self-priming pumps and bypass valve
- ✓ Guaranteed flow rate of up to 45L/min

94-F00212000 • \$2,517.35 inc gst

KOSHIN PUMPS

Designed for industry, construction and agriculture.

Clear Water Pump 1" (25mm)

Ultra light 4 stroke engine. Easy start, less noise. Ideal for clear water applications. 1" inlet and outlets.

Applications:

- ▶ Construction and industrial drainage
- ▶ Landscaping and irrigation
- ▶ Water transfer
- ▶ Portable quad bike or ute packs
- ▶ Transferring diesel fuel

Maximum delivery: 130 L/min
Maximum suction lift: 8 metres
Maximum total head: 32 metres
Weight: 7.4kg

91-SEV-25F \$458.85 inc gst

\$399.00

91-SEH-25L
\$621.00 inc gst

\$540.00

Clear Water Pump 1" (25mm)

Ideal for smaller jobs - powered by the Honda GX25 engine.

POWERED by
HONDA

Applications:

- ▶ Water irrigation with sprinkler systems
- ▶ Pumping of well water
- ▶ Filling water reservoirs
- ▶ Filling or draining water from ponds
- ▶ Washing of livestock, barns or agricultural equipment
- ▶ Pumping water with solid particles up to 2mm

Maximum delivery: 115 L/min
Maximum suction lift: 8 metres
Maximum total head: 32 metres
Weight: 5.5kg

Clear Water Pump 2" (50mm)

Large pump powered by the Honda GX120 fitted with diesel seals.

Applications:

- ▶ Water irrigation with sprinkler systems
- ▶ Pumping water from wells
- ▶ Filling water reservoirs
- ▶ Filling or draining water from ponds
- ▶ Commonly used to transfer diesel on mobile fuel tanks

POWERED by
HONDA

Maximum delivery: 600 L/min
Maximum suction lift: 8 metres
Maximum total head: 30 metres
Weight: 21kg

91-SEV-50E
\$471.50 inc gst

\$410.00

Clear Water Pump 2" (50mm)

Powerful KOSHIN 210S engine with a focus on weight reduction. Easy to carry and light weight body.

Applications:

- ▶ Water irrigation with sprinkler systems
- ▶ Pumping water from wells
- ▶ Filling water reservoirs
- ▶ Filling or draining water from ponds
- ▶ Washing of livestock, barns or agricultural equipment
- ▶ Pumping water with solid particles up to 3mm

Maximum delivery: 670 L/min
Maximum suction lift: 8 metres
Maximum total head: 27 metres
Weight: 21.9kg

Semi-Trash Pump 2" (50mm)

Particles up to 9mm can be pumped through. Long bolt assembly for easy maintenance. Powered by the KOSHIN K180 engine.

Applications:

- ▶ Hire and rental services
- ▶ Irrigation, construction, industrial and general water transfer
- ▶ Drainage of silt traps
- ▶ Pond and pool filling and draining

Maximum delivery: 580 L/min
Maximum suction lift: 8 metres
Maximum total head: 28 metres
Weight: 29kg

Trash Pump 2" (50mm)

For the harshest applications where stones and solids are found constantly and high run times are required.

Applications:

- ▶ Suitable for sandy and muddy water with particles up to 20mm
- ▶ Washing of livestock, barns or agricultural equipment

POWERED by
HONDA

Maximum delivery: 700 L/min
Maximum suction lift: 8 metres
Maximum total head: 30 metres
Weight: 47kg

- ▶ Water irrigation with sprinkler systems
- ▶ Pumping water from wells

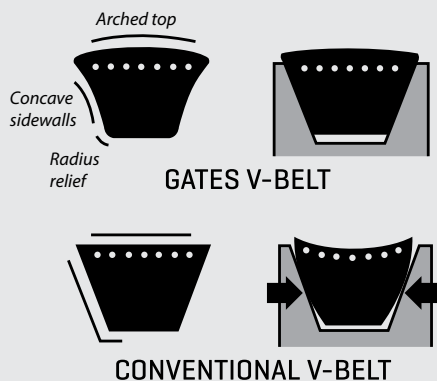

INNOVATION AND EXCELLENCE

SAECOWilson and Gates have been in partnership for over 30 years and bring together the power of Gates' world class products and SAECOWilson's longstanding commitment to servicing New Zealand industry.

KEY FEATURES

While two V-belts may look similar, engineering design processes and materials can vary greatly, leading to vast differences in performance. With over 100 years of experience, Gates advanced V-belts are constructed to out-perform and outlast all other products.

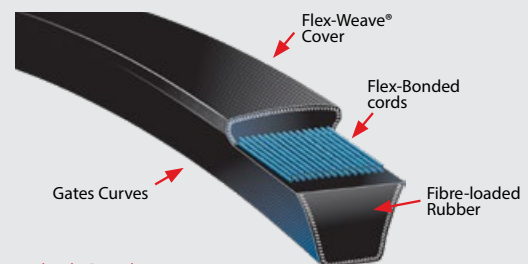

V-belt Curves

When V-belts are under tension and running in a pulley, they change shape. Gates V-belts are designed with the exclusive Gates Curves feature that consists of three key components: **Concave sidewalls**, **Radius relief corners** and an **Arched top**.

Concave sidewalls assure even contact with the pulley. **Radius relief** reduces corner wear and works in conjunction with the concave sidewalls for uniform tensile loading. The **Arched top** provides strength, preventing the "dishing" effect that is found in other belts not engineered for shape change. The superior Gates Curves work to evenly distribute wear and offer uniform cord support creating more efficient drives and increased service life.

Flex-Bonded Cords and Flex-Weave® Cover

Flex-Bonded Cords

A strong chemical bond is used between the tensile cord and the belt's rubber body, allowing all of the belt materials to function as one unit. The Flex-Bonded cords result in less stretch. The cords cannot creep inside the belt, often the case with low quality belts.

Flex-Weave® Cover

Belt covers should shield the belt core from destructive forces such as oil, dirt and heat. Gates patented **Flex-Weave® cover** takes that protection to the next level. Made out of a flexible fabric, treated to maintain a strong chemical bond to the belt core, the **Flex-Weave® cover** can withstand the stress of constant bending over an extended period of time, offering longer cover life and greater protection of the belt. They are engineered to keep belts running longer for less downtime. Other belts are typically made with bias-cut fabric which has a mechanical bond, making them more likely to split.

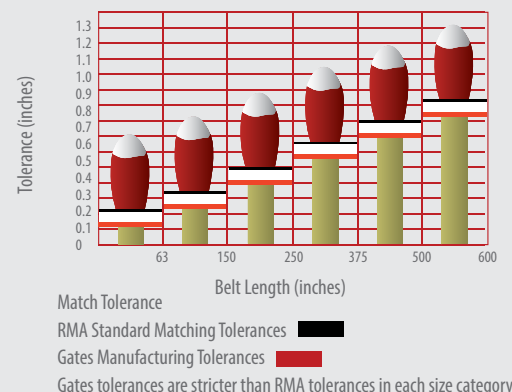

Transverse Rigidity

Fibre Loaded Rubber

Every V-belt must have a high level of rigidity across its width so that load is equally transferred by all of the tensile cords. It is equally important that there is a high level of flexibility along the length of the belt to reduce heat build-up and bending stresses. Gates belts are constructed with **fibre loaded rubber** so that the fibres are aligned in one direction, allowing the belt to easily bend around a pulley but have a high level of transverse (sideways) stability. The **transverse rigidity** of Gates V-belts is engineered to allow for better load life capacity and maximum efficiency from the belt.

Match-Free Belts

Match-Free Belts Since 1980

To prevent users from going through the cumbersome task of matching their V-belts, Gates has applied proven statistical process control (SPC) methods to material and assembly processes, creating the V80 and UNISET series of belts, which are built to tight tolerances in each size category.

Each V80 and UNISET belt is manufactured with a finite length tolerance so that any Gates belt will match and perform with any other V80 or UNISET belt of the same size and type. Made with high-modulus polyester tensile cords, Gates V80 and UNISET belts exhibit extremely low stretch, saving maintenance time and money.

FIELD SERVICES, SOFTWARE and TRAINING

Our aim is to provide you with the right technical support, tools and training to ensure that you get the best performance from your equipment. SAECOWilson and Gates offer a range of services to ensure you get maximum reliability, reduced downtime and lower maintenance costs.

Engineering Technical Services

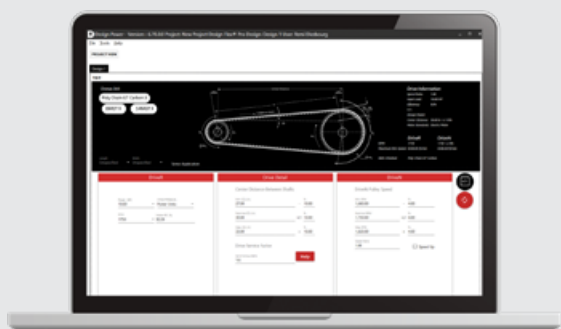

SAECOWilson and Gates field team members are available to work with you on site to provide solutions for any new drives or belt drive problems as well as surveying your entire site/plant, offering:

- Drive design expertise
- On-site drive performance evaluations
- Laser alignment
- Belt tensioning
- Drive operating condition analysis
- Belt failure analysis
- Solutions for special application requirements
- Recommendations and solutions

Gates Design Power

DESIGN POWER

A GATES SOLUTION

The latest generation software platform from Gates offers multiple digital design tools to support the engineering and specification of belt-drive systems across a broad array of applications, making the process easier and more precise than ever before. Gates Design Power™ features updated and upgraded versions of Gates Design IQ™ and Design Flex Pro™ applications.

In addition to the user-friendly functionality of each of the specialised design modules, Design Power includes a state-of-the-art knowledge base with design guidance and the most sophisticated belt-performance models.

Preventive Maintenance Training Course

Gates offers certified Preventive Maintenance Training to assist in achieving the best performance from your belt drives and keeping downtime and maintenance to a minimum.

The most common causes of poor belt life are improper maintenance and improper installation. The course aims to ensure that these causes are illustrated to provide trouble free drives and increased uptime.

- Belt identification
- Belt construction
- Belt matching
- Belt drive problems
- Pulley and belt inspection
- Guard maintenance
- Shutdown procedures
- Drive installation and alignment
- Belt tensioning techniques
- Re-tension periods
- Training on the use of tension and laser alignment tools
- Troubleshooting failure modes

Duration 3 – 4 hours

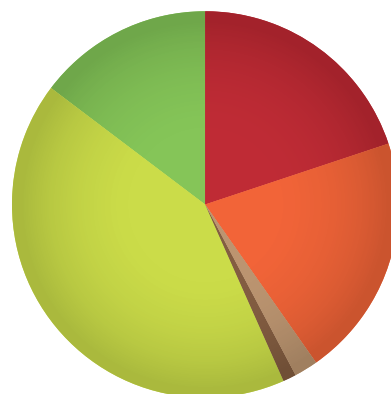

Max 12 per class

Cost: Dependent on group size

Increase Uptime With Proper Maintenance

An effective preventive maintenance program keeps your facility running safely and at optimum capacity.

Properly maintained belt drives can be your most cost-effective and reliable power transmission solution. Industrial belt drive performance is negatively impacted by many factors:

IMPROPER DRIVE MAINTENANCE 42%

ENVIRONMENTAL FACTORS 15%

IMPROPER INSTALLATION 20%

POOR DESIGN 20%

IMPROPER HANDLING 2%

DEFECTIVE COMPONENTS 1%

Eliminating any of these factors has an impact on your productivity!

Attend the Gates' Preventive Maintenance Training Course.

Gates Industrial Belt and Drive Preventive Maintenance Manual

INDUSTRIAL V-BELT DRIVE GUIDE

V-Belts Hi-Power™ II

- Concave sidewalls, and arched top to prevent dishing, and rounded bottom corners relieve internal stress and help make Hi-Power™ II the best performing classical section, heavy-duty V-belt on the market

V-Belts Super HC™

- Pioneered by Gates, Super HC™ belts feature a narrow cross section construction that can transmit up to 3x the power of a classical belt
- Suitable for all heavy-duty industrial applications, particularly where space, weight and power capacity are critical

V-Belts Quad-Power™ 4

- High temperature raw-edge, notched, narrow section V-belt
- Applications with extreme heat (up to +130°C)
- Need to reduce your maintenance and downtime?
- Pulleys too small for your wrapped V-belts?

PATENTED CONSTRUCTION

V-Belts Predator™

- Designed for the toughest, dirtiest and most aggressive applications with unparalleled shock and stretch resistance
- Designed to withstand debris, punctures and slippage
- No stronger V-belt available anywhere!

V-Belts Tri-Power™

- Gates Tri-Power™ is a raw edge, moulded notch, classical section V-belt suitable for very high temperatures
- Patented EPDM construction
- Some sizes available as Powerbands

V-Belts PowerBand™

- PowerBand™ belts consist of several belts joined together by a tie band running across the back of the belts
- The solution for drives where single belts vibrate, turnover or jump out of the pulley
- Available in all sections including Predator®

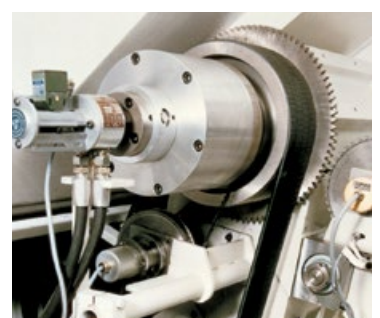

V-Belts Micro-V®

- Outstanding performance at higher speeds on small diameter pulleys
- Micro-V® offers extremely smooth running in a compact drive package

V-Belts Polyflex™ and Polyflex™ JB®

- For use on machine tools requiring high performance in limited space
- Suitable for high speeds and extremely small pulley diameters
- Available as single and joined V-belts

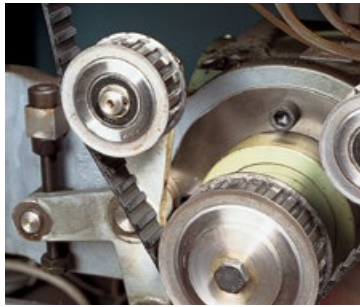

INDUSTRIAL SYNCHRONOUS BELT DRIVE GUIDE

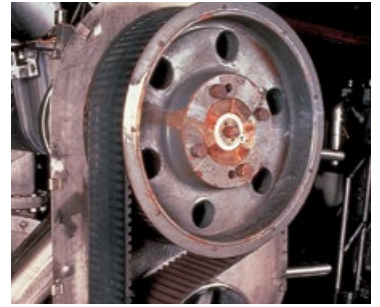

Synchronous Belts PowerGrip™

- Classical synchronous belt, often referred to as a trapezoidal belt due to the tooth profile, offers a maintenance free and economical alternative to conventional drives like chain and gears

Synchronous Belts PowerGrip™ HTD™

- HTD™ curvilinear tooth profile guarantees high power transmission in low speed, high-torque applications

Synchronous Belts PowerGrip™ GT4™

- Larger temperature range capability
- Higher power-carrying capacity giving you the option to use a narrower belt

PATENTED CONSTRUCTION

Synchronous Belts Poly Chain® GT® Carbon™

- The most powerful synchronous belt in the world!
- Maintenance free running makes it an excellent alternative to roller chain and can replace up to 1" pitch triplex chain in capacity

Synchronous Belts Poly Chain® Carbon™ VOLT™

- Poly Chain® Carbon™ Volt™ belts deliver unmatched antistatic performance
- Flex fatigue life of carbon is exceptional, and its high impact strength withstands shocks and surge loading

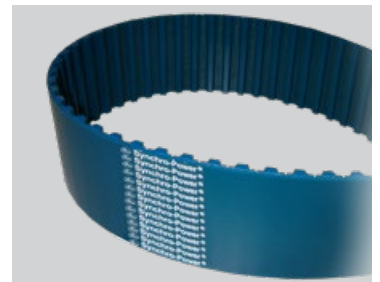

PATENTED CONSTRUCTION

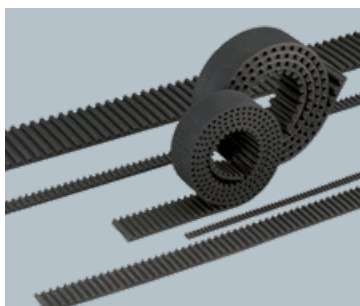

Synchronous Belts Synchro-Power™

- For drives generally of a European origin requiring maximum power transmission combined with tight and accurate tolerances
- Extensive range now ex-stock

Synchronous Belts Long Length

- Open end synchronous belting especially suitable for linear movement
- Available in rubber and polyurethane and with glass and steel tensile cords
- Special tooth coatings and backings are also available from Gates TPU

Maintenance Kits

- Optimum belt drive performance is not achieved via guess work, you need the right tools for the job
- Gates' most popular maintenance tool kit allows any belt drive to be accurately installed and maintained
- Includes Gates' premium 550C Sonic Tension Meter and EZ Align™ Green laser alignment tool
- Three kit versions are available with slightly different components included to suit your requirements and budget

SAFE STEP 100

An epoxy ester non-slip floor and outside surface coating designed for application in heavy pedestrian traffic areas.

- ✓ **SINGLE COMPONENT** Easily applied by trowel or roller
- ✓ **MEETS ANTI-SLIP STANDARD AS4586**
- ✓ **MULTIPLE APPLICATIONS** Pedestrian ramps, stairways and walkways

HIGHWAY & PAVEMENT PATCH

A rapid set cement repair for repairing footpaths, driveways, damaged paving and tiles.

- ✓ **EASY TO USE** Just add water
- ✓ **FAST CURE** Minimum shutdown for traffic and pedestrians
- ✓ **NON-TOXIC** No fumes or odours
- ✓ **HIGH STRENGTH**

Industrial Cleaner and Degreaser 20L

- Non-toxic and biodegradable
- Varied dilution for specialised cleaning
- Broad range of applications including dip tanks and parts washers
- Cuts through tough grease, oils, cutting fluids, built-up grime and residue
- MPI C32 and ECNZ approved

\$150.00

SG13004 • \$172.50 inc gst

Concentrated Truck Wash 20L

- Highly concentrated cleaning product that can be applied by pressure washer, foaming gun, spray pack or brush sponge
- Low foaming, reducing the amount of water needed when rinsing
- Ideal for use in wash bays that are equipped with an oil/water separator

\$144.00

SG19480 • \$165.60 inc gst

Parts Washer Fluid Concentrate 20L

- Aqueous-based, formulated for use in both conventional and rotating parts washing machines that use a water based degreaser
- Safe alternative to dangerous, flammable, caustic degreasers and solvents
- Multi-use product which can be diluted for general cleaning and degreasing applications
- Features Quick Break and the used liquid can be disposed of into oil/water separators reducing hazardous disposal costs
- Best suited where less foam is desired

\$162.30

SG19484 • \$186.65 inc gst

Multi-Dilution Foamer 1.4L

- Convenient, non-electric foamer that adjusts from a powerful, wide spray down to precision streaming
- Produces a thick, consistent foam that clings to hard-to-reach surfaces
- Hose-end attachment provides quick transition from cleaning and sanitising to rinsing
- Handle lock for continuous operation
- Wide mouth opening for easy refilling
- Comes with 13 coloured metering tips

\$126.00

SmartWasher®

BIOREMEDIATING Parts Washing System

The CRC SmartWasher® Bioremediating Parts Washing System is both self-cleaning and environmentally friendly.

The pH neutral cleaner called OzzyJuice is used to effectively clean parts, removing grease and grime while the naturally occurring process of bioremediation is used to turn those potentially hazardous contaminants into a harmless by-product of carbon dioxide and water.

BONUS* Choice of: G-Shock Watch GA-700 Series or \$150 Gift Card from Hunting and Fishing

*Purchase any CRC SmartWasher + Start-up kit and receive a BONUS gift of your choice (G-Shock Watch GA-700 Series or \$150 Gift Card from Hunting and Fishing. While stocks last. Fluids in start-up kit vary depending on machine purchase.

SW37 unit shown - promotion available to all SmartWasher + Start Up Kits for part codes shown. Promotional period 1/12/23 to 29/2/24. T's & C's apply.
